

Include an adult dental benefit in Medicare

NATIONAL TACTICS

STATE TACTICS

Build partnerships with key national organizations that have position, clout, and influence to support consideration and passage of a bill

Support state and local organizations to engage administration and legislative champions for appropriations

Engage national partner(s) in drafting necessary legislation and supporting materials

Invest in engagement and mobilization of state and local advocates (including business, providers, and others) to drive movement from the state and grassroots, including partnerships with legislative champions

Develop and implement continuing education programs for care providers serving older adults

Develop a national and consistent message that speaks to the importance of the benefit in Medicare and a strategic plan for delivering that message

Engage national partner in conducting Congressional Budget Office (CBO) scoring of benefit and eventual bill

Define and build consensus on definition of comprehensive dental benefit in Medicare
